

DOSINETTI Your online dose monitoring service

Dosinetti is Doseco's easy-to-use online service. In Dosinetti you can manage your dosimeter orders, dosimeter users, and radiation dose measurement results. Dosinetti displays the latest information, and you can update the details easily.

Update personal information of dosimeter users

You can update user information directly in Dosinetti – no other notification is needed.

Dosinetti displays the current personal information of your dosimeter users and the change history.

Manage your orders

You can view the next shipment date and make changes to your order up to the moment we pack your dosimeters.

Dosimeters in use

Dosinetti displays the dosimeters that are currently in use. You can edit the dosimeter users and measurement periods when necessary. The intuitive user interface makes it easy to keep track of the dosimeters.

Dose details

You can view dose details in Dosinetti.

All dose reports are available in PDF format, so they are easy to save and print.
